A unique, experience filled practical learning program where students get exposed to real life skills training, guidance on career decisions helping them shape their dreams.

WHY THIS PROGRAM

In the current age of technology and infinite possibilities, it is very critical to prepare our youngsters with a well balanced portfolio of knowledge and soft skills.

This program will provide customised results based mentoring to students who come from backgrounds and places where the right information and guidance is absent. We will build the first generation of rock stars and dreamers in the families who work hard to get their children to education even if they just meet their ends.

SARTHAK MENTORING INITIATIVE

A place where we give wings to the dreams in the real world.
